

Blocktrow's

Loves you

## > What's this?

We've asked Blocktronics members and friends to create Valentine's Day Card imagery, all based upon the same little heart-shaped outline depicted below.

The resulting ANSI art by artists from the USA, Canada and Germany has been collected in this little 5x7" booklet and its letter format companion to allow for easy printing, so all of you textmode enthusiasts out there can spread the love and make the world a little better.

Happy Valentine's Day,  
Blocktronics loves you!
